

2nd German American Energy Conference 2010

March 22 - 23, 2010 in Berlin

Don Wichert

Director Renewable Energy Programs
Wisconsin Energy Conservation Corporation

Professional Career

Don Wichert is the Director of Renewable Energy Programs at the Wisconsin Energy Conservation Corporation in Madison, WI. From 1994 to 2010, he directed the administration of Wisconsin's \$9 million per year Focus on Energy renewable energy system benefits program. The program supported market development of solar electric, solar water heating, customer owned wind, biogas digesters and biomass combustion technologies by providing a variety of services and finances to eligible Wisconsin customers.

Don has worked professionally in the environmental and energy fields for 30 years, much of it with the Wisconsin Division of Energy as Chief of the Energy Resources Section. In that capacity he managed data analysis, policy development, program management, and information dissemination on fossil and renewable fuels in Wisconsin.

Education

Don Wichert has a B.A in Geography, a B.S. in Thermal and Environmental Engineering and an M.S. in Land Resources with a certificate in Energy Policy & Analysis.

Additional Information

Don has served on numerous state and national renewable energy boards and is currently a Board member of the Solar Rating and Certification Corporation and Wisconsin's Citizen's Utility Board. He is a licensed professional engineer in Wisconsin.
