

2nd German American Energy Conference 2010

March 22 - 23, 2010 in Berlin

Glenn James Pierman (G. J.)

Director of Special Projects
WIRSOL GmbH

Professional Experience

G.J. Pierman is President of WIRSOL Solar Inc. & Wirsol Solar Colorado Inc. This North American office of Wirsol Solar AG was opened on April 2, 2009 in Fort Collins, Colorado.

From February 2007 to July 2009 he was Director of Business Development at WIRSOL Solar AG.

His focus and responsibilities have been on business planning and development, including the identification and development of strategic relationships with module manufacturers, new market development, new product development, financial and business planning, and high level key account sales and marketing support.

From February 2002 to March 2007 he was a Principal at GJP Consulting in Kronau, Germany, where he assisted a number of small companies with projects relating to business development, including fund raising, market analysis, sales and marketing, deal negotiation and translation.

From September 1996 to January 2002 he served as Chief Operating Officer and V.P. of Sales and Marketing at Titan Power Plus L.L.C., Moses Lake, WA, USA. He was responsible for all day to day operations at TiTAN, overseeing a full time staff of six people, plus numerous outside consultants and contract labor. Daily activities included the movement of materials in and out of the facility, the maintenance of all mechanical systems, connectivity, access to power and the physical upkeep of the facility and surrounding property.

Education

From 1980 to 1984 he studied at Vanderbilt University, Tennessee, USA and Vanderbilt Université en France, Aix-en-Provence, France. He holds a Bachelor of Arts degree, cum laude, in French; Specialization in Economics.
