

2nd German American Energy Conference 2010

March 22 - 23, 2010 in Berlin

Jill Stuckey

Director
Georgia Center of Innovation for Energy

Jill Stuckey is the Director of the Georgia Center of Innovation for Energy, affiliated with the Georgia Environmental Facilities Authority (GEFA), where she previously served as the state's Director of Alternative Fuels. The Georgia Center of Innovation program is housed in the Georgia Department of Economic Development, to align the program's unique resources and capabilities with growing the state's strategic industries.

The Center of Innovation for Energy was established by Governor Sonny Perdue in April 2008. The mission of the COI-Energy is to expand the production and use of renewable energy and alternative fuels in Georgia. Since Ms. Stuckey's appointment to this position by the Governor, Georgia has announced billions of dollars and hundreds of newly created jobs in renewable energy and alternative fuel projects.

Jill Stuckey started her career at Triangle, Inc., where she became part owner and built one of the largest fuel maintenance companies in the state. She traded private industry for state employment when she sold her company interest in 1992 and went to work for the Environmental Protection Division, Underground Storage Tank Program. During her tenure, Stuckey developed the concept of combining all state owned fuel tanks into one agency's control – the Georgia Environmental Facilities Authority. At GEFA, she was able to save the state more than \$100 million dollars in environmental remediation and capital costs by implementing her ideas. Her focus then turned to alternative fuels, in which she worked to develop fueling infrastructure and guide business owners interested in locating or expanding alternative fuels companies in Georgia. Jill earned a bachelor's degree in business administration from Ohio University.

In addition to her role at COI-Energy, Jill Stuckey sits as a board member on the following organizations: Plains Better Hometown Program, Friends of the Georgia Archives and the Georgia Women of Achievement.
